

Iced Coffee Module

Enhance your business opportunities by offering more choices to your customers. With Franke's innovative Iced Coffee Module, you can now easily expand your range of high-quality beverages for seasonal offerings. Delight your customers with the irresistible taste of freshly brewed iced coffee, served on its own or combined with milk, milk foam, or syrups. Let them enjoy the full and flavorful taste of freshly brewed coffee, chilled just before being dispensed into their cup. This is coffee competence at its finest!

To simplify your operations, the module is designed for automatic cleaning as part of the coffee machine's cleaning process. This way, you can focus on serving exceptional coffee experiences while the maintenance takes care of itself.

Cleaning

The Iced Coffee Module is automatically cleaned as part of the existing coffee machine cleaning process

Expanded choice of beverages

Iced coffee can be served alone as cold coffee or combined with milk, milk foam, and/or syrup

Iced Coffee Module

Is available for the A600, A800, A1000, S700, and SB1200

Technical Data

Machine Models

Iced Coffee Module is available for the models A600, A800, A1000, S700, and SB1200

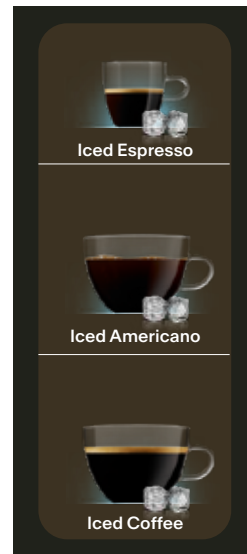

Expanded choice of beverages

Traditional beverages

All Franke machines with the Iced Coffee Module continue to deliver the traditional range of high in-cup quality beverages combined with warm and cold milk, milk foam, and syrups.

REFRESHING

In addition to traditional drinks, expand your coffee program significantly with Franke's Iced Coffee Module, offering a wide range of deliciously refreshing cold espresso-based beverages. The coffee is freshly ground, brewed and then cooled for ultimate taste. Customize your creations by combining it with cold milk, milk foam and syrups.
