

Product # NCG14

MultiFlex Contact Grill NCG8, NCG9, NCG14

Prince Castle is proud to introduce our most versatile and compact MultiFlex Contact Grill! The design of this high-performance grill was taken right from the operational needs of our food service partners worldwide. Our rigorous testing of over 2 million cycles assures reliability and consistent operation!

Its parallel platen design consists of two heated plates that not only speeds up cooking and grilling but also ensures easy pressing and uniform heating during the cook cycle. Grill plates can be ordered with smooth or grooved surfaces.

The MultiFlex's 2 in 1 versatility is best shown by the "TOP HEATER OFF" feature allowing a flat surface griddle function. This also permits the use of cooking protein! Meal changeover is as simple as switching on the top heater allowing top surface grilling creating foods like paninis, BLTs, toasted hoagies, gourmet grilled cheese sandwiches and more! Cleanup is also made easy with a simple catch tray removal and elimination of hidden grooves and crevices.

The MultiFlex Contact Grill can be ordered with electronic controls that have four separate timers and temperature settings for each heater. Manual thermostats are also available with an easy to adjust knob.

Product Features

- Top heater temperatures are independent for product flexibility
- The top heaters are parallel with the bottom grill surface to perfectly grill thick sandwiches like paninis
- Top heaters can be turned OFF to use the bottom plate as a flat grill
- Plates can be ordered with smooth or grooved surfaces in aluminum or steel
- Heavy duty torsion spring
- Both Electronic or manual temperature controls are available
- Easy cleaning and maintenance
- One-year parts and labor warranty
- Teflon sheets, egg cookers, heat shields, and cleaning accessory kits are available but sold separately
