The taste of quality worldwide

BRAVILOR BONAMAT

You can taste the quality

Do you want to experience the ultimate full fresh coffee experience? The professional fresh brew series from Bravilor Bonamat brews coffee from ground coffee or coffee beans, depending on the machine of your choice. The *Touch-series* comes in white and black designs and features an intuitive touchscreen. Together with its low maintenance, ease of use is guaranteed!

In-cup quality

Bravilor Bonamat uses paper filters supplied on a roll. This means that every single cup of coffee is prepared using a clean filter. Paper filters are healthy, hygienic and require little maintenance. Additionally the high-quality brewer ensures optimal extraction. This all results in a superb taste of coffee.

Featuring

- Accepts any type of coffee bean
- Low maintenance services — thanks to the automatic descaling and rinsing programme
- Meets quality standards of ECBC (European Coffee Brewing Centre)
- Intuitive touchscreen control for easy operation
- Set your own menu: size (ml), strengths and more
- Copy across favourite settings easily (SD card)
- Create/show your own beverages and screensavers to advertise/communicate on the touchscreen display
- Smart counters — warn you when the waste bin is full or descaling is necessary, and show you the daily/ cumulative usage
- Choose your own size of cup, mug or decanter (1 ltr)
- Separate hot water outlet

■ FreshMore

The FreshMore offers coffee specialties such as cappuccino, café au lait, moccachino and hot chocolate. All made with ground coffee, instant cocoa and/or topping. To optimise your own flavour you can select the required coffee strength and/or add milk to your drink. Note that hot water is available via a separate outlet.

■ FreshMore XL

The FreshMore XL is similar to the FreshMore but offers more options for other coffee specialties. Some models have larger canisters for extra storage; other models have multiple canisters for extra ingredients such as decaf coffee and sugar. Additionally you can select the required coffee strength, add milk and add sugar to your cup of coffee.

Eye-catching touchscreen

The fresh brew machine is equipped with a stylish touchscreen that gives the machine a modern and elegant look. The display is easy to operate and can be set according to your wishes.

Create your own marketing tool!
Use the full-colour advertising medium with customised images presenting the coffee specialties. Backgrounds and screensavers can be created and installed as well.

■ FreshGround

The FreshGround is similar to the FreshMore, but every cup of coffee is made with freshly ground coffee beans (bean-to-cup) thanks to the high-quality grinder inside the machine.

This not only increases the *full fresh coffee experience*, but also increases the quality of the beverage as your coffee is made directly with the freshly ground beans.

■ FreshGround XL

This is the ultimate fresh brew machine. Every cup of coffee is made with freshly ground coffee beans and the machine offers a wide variety of coffee specialties (depending of the model of your choice). Additionally you can select the required coffee strength, add milk and add sugar to your cup of coffee.

■ Black or white?

Which colour suits you best?

Black, white or stainless steel?

Some people love the stylish black fresh brew machine, others prefer the white model perfectly matching the kitchen corner.

Both models offer the same functionality, so you can choose the colour that suits your environment best. Note that some models are also available in stainless steel. Please contact us for more information.

ECBC certified

The fresh brew series meets the high quality standards of the ECBC (European Coffee Brewing Centre). This guarantees good quality coffee!

Pay per cup

Bravilor Bonamat supplies accessories to connect the fresh brew machines to various payment systems that meet the MDB protocol for vending machines.

Bean-to-cup

The transparent bean canister on top of the FreshGround and FreshGround XL increases the *fresh bean-to-cup experience*.

Matching cabinet suits fresh brew series

Bravilor Bonamat also supplies accessories to extend and complete your coffee vending machine. Cabinets are recommended to store the necessary supplies or to create extra space for coffee residue below the machine. The available waste chute + extension make this fairly easy.

Bravilor Bonamat offers two black metal cabinets: small and large. Both matching the fresh brew machines perfectly.

Your Bravilor Bonamat dealer

The following details apply to all fresh brew machines
